RE: New US Patent Application
ZSIG33-LIKE PEPTIDES
Our Ref. 00-30

Attached is a copy of the above-named regular U.S. patent application as filed May 10, 2001. This application claims priority from Provisional Application Serial No. 60/203,300. Please review the application and let me know if anything needs to be corrected.

The Patent and Trademark Office regulations require, as does the Declaration, that the inventors and anyone associated with the inventors, such as the assignee, have a duty to disclose to the PTO any information which may be important to the Patent Office Examiner in deciding to allow the application to issue as a patent. If you are aware of any such information which has not previously been called to my attention, please let me know.

Thank you for your cooperation.
